### Recent Increase in COVID Cases

In recent weeks there has been an increase in COVID cases within our school community, including suspected on-campus transmission. In addition to the potential health concerns, absences impact student learning and staffing shortages.

While masking remains optional at our schools, it is *strongly recommended* indoors and in crowded outdoor spaces by the California and Humboldt County Departments of Public Health, and the Cutten School District Board of Trustees. Masks are available to all students, staff, and visitors in the office upon request.

### Incoming TK and Kindergarten Student Screening

May 23 - 27

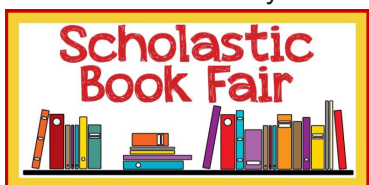

Incoming transitional kindergarten and kindergarten families were invited to sign up for after school appointments last week.

If you know an incoming TK/K student that has registered for next school year, but they did not receive an invitation to the screening, please share the link below or have them call the Ridgewood School office.
