

Cutten Elementary School District

Instruction

BP 6143

Course of Study

The Board recognizes that a well-articulated sequence of courses fosters academic progress and provides for the best possible use of instructional time. The district's course of study shall provide students with opportunities to attain the skills, knowledge, and abilities they need to be successful in school, college, and/or the workplace.

The Superintendent or designee shall establish processes for ensuring the articulation of courses across grade levels within the district and, as necessary, shall work with representatives of appropriate area districts to ensure articulation of courses between elementary and secondary schools. The sequence of courses shall be designed to ensure that each course provides adequate preparation for the next course in the sequence, avoids significant duplication of content, and allows for reinforcement and progression in the subject matter.

Elementary Grades

The Board shall adopt a course of study for elementary grades that sufficiently prepares students for the secondary school course of study.
