

Follow these instructions if you are having trouble connecting to our NEW district parent portal.

Click on this link:

<https://cutten.schoolwise.com>

Next click on the bar that says Parent Signup.

Choose the MIDDLE OPTION on the next window.

The next step is where we are seeing some glitches due to misspellings, alternative emails, or other items that do not match. We are working through each of these individually and they are resolving quickly.

If things match up you will receive a success message and an email is sent that includes a code that you copy and paste into the requested location.

New Parent Account

Request Activation Code

To Request a Parent Activation Code, you must have one or more children enrolled in a school in this district, either currently or in the past.

All fields are required, and must match the school's records exactly. If your request is accepted, you will be sent an email containing your activation code, with a link to create your account.

Parent Information

Your First Name

Your Last Name

Your Email Address

Enrolled Child Information

If you have ever had at least one child enrolled in this district, you can use the information from any of your enrolled children to sign up. Parents will be able to see all children in the family once the account is created.

Child's First Name

Keep me logged in

Once you have your email it will take you back to the Signup location and the code can be input and will link you to your student. Then you can link more students in your family. Also click on the little blue eye and they give you little tips as well. Each of the [How to...](#) have more helpful images to help you succeed.

New Parent Account

i Sign Up for a New Parent Account

Requirements for Signing Up

In order to sign up for a new parent account, the school must first have you on record as a parent or other family member of a student enrolled in Cutten Elementary District.

If you are a parent, who lives with the student you sign up with, your account will have access to all students in that family. If you are not the student's parent, or do not live with the student, then your account will initially have access to only the student you signed up with. After your account is created, you will be able to add additional students to your account, if necessary.

You will also need either a personal email address, or a personal activation code provided by the school. If you have an email address, and the school has this address on file, then you can request your activation code online, using the "Request Activation Code" button. If you do not have an email address, or your email address is not on file with the school, then you must use the activation code given to you directly by the school. The school may mail your Activation Code to you in a letter, or print it out for you in person at the school office.

Our new portal is also very helpful in that we can now pull reports daily that notify us of which parents have not connected. Our goal is to follow up with all families and assist you.
